Unforgettable Aussies Volume II

AKC-INT-ASCA Champion
Bluestem's Man-O-Firethorne
USASA HOFX Sire #8 - ASCA HOF Sire #140

CLICK HERE to buy NOW on Amazon

“Yukon’s impact on this breed was phenomenal. Yes, his pedigree dictated such a destiny; but all too often, the best of the best on paper doesn’t mean the dog will make his mark.

A few are born great; a few achieve greatness; a few produce greatness. Yukon was truly one of the few great dogs!”

- Tim Preston

*AKC-INT-ASCA Champion
Bluestem's Man-O-Firethorne
USASA HOFX Sire #8 - ASCA HOF Sire #140*

Call name: Yukon

Born: 1996

Sire: Briarbrooks Black Arrogance

Dam: AKC CH Firethorne's Finishing Touch

Breeder: Bruce Isaacson

Owners: Tim J. Preston and Debbie Duffecy and Jenna Duffecy, Cobbercrest

"Yukon was bred by Bruce Isaacson under the guidance of Ken Kimball DVM. I first saw the puppy at seven weeks of age at Ken's veterinary clinic. I attempted to buy him then, but other plans for Yukon had already been made.

The following year, my friend Linda Wilson of Briarbrook mentioned she was showing a blue dog for Ken. She said the dog was quite handsome and thought I'd find him appealing. We had a good laugh because Linda had misunderstood Ken when he told her the dog's name, which was "Utah." The dog didn't seem to know his name anyway and Linda had been calling him Yukon for months! I was surprised to learn this was the puppy I had been unable to buy from Ken the previous year.

This document can be shared freely as long as the web address below is visible.
Unforgettable Aussies Volume II. Read more stories at www.paula-mcdermid.com

At that time I owned “Chevy” who was from Ken’s breeding program, and who had proven to be a red producer. Ken was keenly interested in owning a red-producing dog. Chevy had sired a beautiful litter and one of the pups became the lovely MBIS MBISS AKC-ASCA CH Rainyday’s Red Red Wine “Merlot.”

While I’d been successful in showing Chevy to his AKC and International championships, I was not convinced I wanted to keep him. So I suggested to Ken that we trade. He could have the red-producing dog in exchange for the blue dog that I’d wanted all along—Yukon.

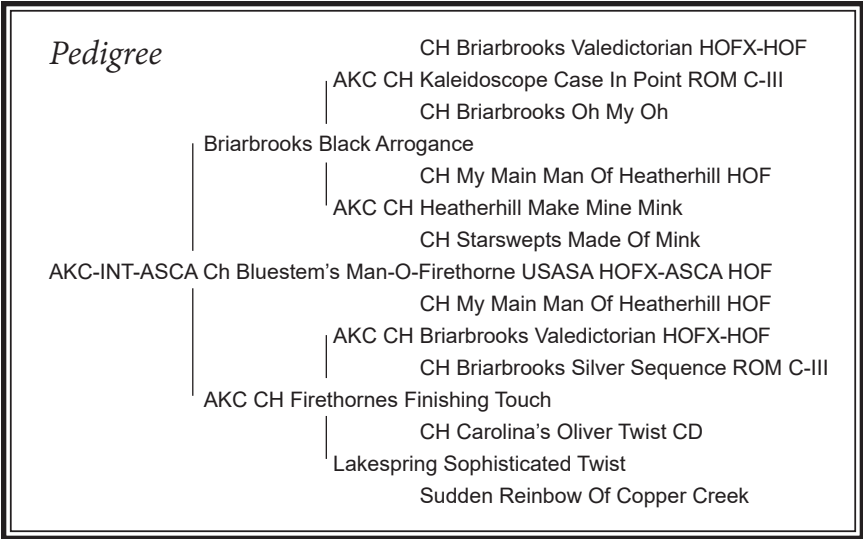

In anticipation of the trade happening, I brought Chevy to the next show with me. After Yukon finished competing (he was Winner’s Dog that day), the trade was made. We both felt victorious. Little did we know what a huge impact Yukon was about to make on the Australian Shepherd breed!

When I brought Yukon home, I noticed there was an area in his lower back that didn’t look or feel right, and his rear movement (especially one leg) had a hitch in the action. There was the possibility that he just wasn’t as clean-moving in the rear as I would have preferred. But there were so many other things about Yukon that I loved that I decided it would only be a concern if he was unable to pass his OFA hip exam. I immediately scheduled his preliminary hip X-ray, which showed some mild misalignment; his first prelim rating was OFA Fair.

After several chiropractic visits over the next few months, Yukon made excellent, rapid improvement. He had a second preliminary exam and received an OFA Good. Soon, Yukon was old enough for his adult OFA grade and it too came back OFA Good.

In 1999, Yukon, who was three years old, won an Award of Merit at Westminster. He also received an Award of Merit at Westminster the following year. Photo courtesy of Tim Preston. Photo credit: John Ashbey.

Yukon's paternal grandsire AKC CH Kaleidoscope Case In Point ROM C-III "Casey." Born 1994. Sire of 27 champions. Photo courtesy of Linda Wilson. Photo credit: Downey.

Yukon's dam AKC CH Firethorne's Finishing Touch "Heather." Born 1994. Photo credit: Booth.

I can honestly say I always wished he had a bit cleaner rear movement, but because of the severity of the injury to his back and hip region, his chiropractor believed it had improved as much as it was going to. An interesting note is one of the many desirable traits Yukon stamped on his offspring was beautiful rears. I have no doubt his injury was the only factor affecting his own rear movement.

Yukon was a true ambassador of the breed. His temperament was outstanding! He would fiercely alert us to any sign of disturbance or danger, and when all was well, he was the most comical and fun-loving dog you ever met. His gentle, soft eyes were a window into his soul. While he was my best friend, his true devotion

was to his co-owner, my dog partner in Cobbercrest, Debbie Duffecy. I teased her that Yukon was at her place for 95% of the breedings so that's why he liked her best (but I knew differently).

Yukon had a tremendously successful show career that included many Best of Breed awards against tough competition in both AKC and ASCA. He was also honored with the prestigious first Award of Merit at Westminster in both 1999 and 2000.

Yukon's impact on this breed was phenomenal. He stamped a regal look on his offspring, which is apparent many generations down the line. He consistently passed on his classic head, beautiful arch of neck, fit of neck to shoulders, clear richness in color and appealing structure. His progeny display proper balance in angulation, proportion and substance.

Yukon was the sire of 63 champions. He was Pedigree's Top Producing Sire for three years and the # 2 sire for two more years. He continues to be one of the top four producing sires in the history of the breed."

- Tim Preston

Mary Ellen Reynolds · *Beautiful!*

Claudia Bosselmann · *My dog Multi CH Mill Creek's Night Flight "Kanoa" was a son of AKC CH Cobbercrest Ring of Saturn. It was a big present to get this dog from Debbie Tapp as he was a truly versatile and beautiful dog. He was a Multiple Champion, Multiple Club Winner, Multiple National Winner, FCI Century Winner and VDH Century Winner. Those titles were won under American breeder judges. On top of that he was an Obedience Champion and a National Champion Rally Obedience at the age of 11 years. He was a wonderful performance dog and he loved Obedience. Kanoa was a successful sire with champions in several countries in Europe. We unfortunately lost him last year, but he will leave his pawprint in his progeny here in Europe.*

Kanoa's daughter CH Rafter Creek's Daddy's Girl "Neyla" is linebred on Yukon. She is out of CH Mill Creek's Guidance By The Stars "Jamie" who is Yukon's great-granddaughter. Neyla is a very successful show dog. She's a Multiple Champion-National Winner-Club Winner and a wonderful performance dog. She was Most Versatile Australian Shepherd Female two years in a row in Germany.

Lynn Godbee · *I'm proud to have a Yukon grandson as one of my two heart dogs. He is AKC GCH-CKC CH Spotlight's Roll Tide Roll BN CD RA "Saban."*

Summer Jewel Fuls · *I'm so glad to have Yukon in my pedigrees.*

Robin De Villiers · *Coultrip's Robin La Rouge "Happy" is Yukon's great-granddaughter. Her name Happy totally defines her spirit. She's balanced, confident, and resourceful. She takes charge in a quiet manner. She's a remarkable girl. I have Happy descendants, and we are all very happy for this.*

Petra Mostert · *Yukon is in all my pedigrees from Thornapple. He was beautiful!*
